DEATH RELIEVES HIS SUFFEEIING

GOING AN OPERATION FOR APPEN-DICITIS AT EVANSVILLE

The News of His Death Came as a Gre Shock to His Family and Friends

When the news was flashed ov the wires last Monday morning th Will Crawford was dead, the enti was stunned and grieved beyon expression.

While Mr. Crawford had been eou plaining for a few days and his ph sician had advised him that an ope tion was necessary to releve him of an attack of appendicitis, it was no thought that he was in a citical cor dition or there would be my fatal re unprepared for the rude slock whie the intelligence of his heath gavi

Mr. Crawford was first taken ic about three weeks ago aid was conpelled to leave his position in th Farmers Bank. He ralled, however and was up and about tie city la week. He did not' regver entire and finally decided to go to Gilbert Sanitarium at Evansvill and have operation performed in order that might improve more rapidly.

He was very hopeful of ultim recovery and when talking to friends last Thursday before his ure for Evansville, spoke of l

THE PREVENTION OF TYPHOID FEVER

Circular Issued by the State Board of Health of Kentucky.

TO THE HEALTH OFFICIALS, PHYSICIANS AND PEOPLE.

This Board again feels it to be a duty to eall the earnest attention of our health authorities and people to the increasing prevalence and mortality from typhoid fever and to the consequent growing importance of the constant use of the methods endorsed and confirmed by scientific research and observation for the prevention of the disease. 13,305 eases of this disease and 1,579 deaths were reported in Kentucky last year, chiefly confined to people in the prime of life and usefulness. The cost of earing for those sick of it, to say nothing of the sorrow, suffering and loss of life, for the year, is reported as being \$963,750.

Typhoid fever is probably the most preventable of all diseases, not even excepting smallpox. It is now definitely known that, like eholera and dysentery, the germs of the disease are contained only in the discharges from the bowels and kidneys of those sick of it, and that it is necessary for a person to swallow some of such discharges, or things polluted by them, in some way, in order to contract the disease. They usually gain entrance to the system through infected water from wells or streams draining inhabited areas, and polluted by infected fecal matter, or such matter may be carried by flies and deposited ou the food, utensils and hands in unscreened kitchens and dining rooms. The germs may also be carried on the hands of careless attendants, or on soiled clothing, or indirectly, by using milk or other articles of uncooked food or drink from pans and vessels washed in in fected water. Ice from infected water is also dangerous, as it has been proven that freezing does not kill the gerius.

A large volume of water may be infected from oue case, and if already polluted with organic matter, becomes a ready culture fluid for the multiplication of the germs. In the now noted epidemic at Plymouth, Penn. involving the siekness of 1,104 persons, and the death of 114, the outbreak was traced to the use of water from a stream infected by the discharges of one imported ease. The recent disastrous epidemic at Ithaca, New York, causing many deaths, and requiring the suspension of Cornell University, er, A. A. Riggiu. was traced to the use of a public water supply similarly infected.

On the other hand, in the distressing and fatal epidemie which clung to our military camps at Chiekamauga, Camp Mead, Montauk Point and other places, during the Spanish. American was, flies were found to be the principal carriers of the disease by the United States Commission appointed to investigate the origin of the outbreaks. By the use of white powder sprinkled over the discharges in the latrines, thousands of these pests were tracked direct from these and found covering the food, hands and utensils in the kitchen and mess rooms of the common soldiers. Cultures taken from the feet, legs, bills and intestines of these flies showed the germs of typhoid fever in countless numbers. The kitchens and mess rooms of the officers were sereened, and they most uniformly escaped the disease. Other facts no less convincing as to both water and flies being carriers of this disease might be multiplied indefinitely, if space permitted. In a smaller way, they must be common in the experience of most physicians in active practice.

Based upon the teachings of the foregoing facts, the following rules and is survived by the wife and twelhave been prepared with eare for the guidance of all persons interested in ve children, six sons and six daughtheir own and the public health

1. When it is known or suspected that a person has typhoid fever, he should be placed in a large, well ventilated room, with the windows and doors well screened, and such preparation should be made from the first day for the thorough and systematic disinfection of all discharges from the bowels and kidneys as will protect other members of the family; the attendants, any the community.

2. A solution of chloride of lime, eight ounces to the gallon of water should be provided in quantity, and a quart of this should be put in the bed-pan or vessel each time before it receives the discharges, and should be well stirred and allowed to stand in the vessel at least an hour before it is buried. An equivalent solution of ereoliu, or a thick white-wash made from the fresh quicklime, may be used in the same way when the chloride of lime cannot be obtained, but with these at least two hours will be required to complete the disinfection.

3. Soiled bed or body linen should remain in the chloride of line solution for an honr, and may then be safely put in the family wash. Soiled paper or clothes used about the patient should be immediately burned. Attendants should wash the hands frequently, and the lips, and rinse the month always before eating No one should partake of any food which has stood in the sick room. All of these precautions should be continued until all diarrhea has eeased.

4. Typhoid fever is not a contagious in the sense commonly understood, and if the precautions above indicated are faithfully and intelligently carried out, a case may be treated in any family or community with perfeet safety. If others have the disease, it will be because they were infected from the same source as the patient, or contracted it elsewhere. The same precautions should be observed in dysentery and all other diarrheal

diseases, including summer complaint in children.

5. All well water and unfiltered water from rivers draining inhabited areas, where typhoid fever and diarrheaf diseases are likely to occur at any time, and milk stored in cans or vessels washed in such water, should be looked upon as suspicious, and should always be boiled before it is drunk by any one not immune from typhoid fever. In the absence of a reliable, filtered, public water supply, carefully collected and properly stored, cistern

6. The windows and doors of all dwelling houses, and especially of the kitchen and dining room, should always be well sereened, and the flies actually kept out. Unless this is done, a carlessly managed case of typhoid fever, or other dirraheal disease, even a mile or more away, may be a source of nanger on account of flies. As mosquitoes are now known to be carriers of malarin, the same precaution will protect from this poison

The universal and effectual practice of these precautions would require intelligent care and some expense, but would result in the practical disappearance of one of our most common ann fatal domestic pestilences, which is not only a disgrace to our civilization, but an aunual scourge and tax upon the people of Kentucky in comparison with which yellow fever and cholers, plague and other oxotic diseases so feared by our people sink into insignificance,

Copies of this eircular, and of others in regard to the prevention of consumption, diphtheria and searlet fever, may be had by any one for free distribution upon application to the Board at Bowling Green.

By order of the Board.

whether or not your heart is affected. One person in four has a weak heart: it may be you. If so, you should know it now, and save serious consequences. If you have short breath, fluttering, palpitation, hungry spells, hot flushes; if you cannot lie on left side; if you have fainting or smothering spells, pain around heart, in side and arms, your heart is weak, and perhaps diseased. Dr. Miles' Heart Cure will relieve you. Try a bottle, and see how quickly your condition will improve.

"About a year ago I wrote to the Miles Medical Co., asking advice, as I was suffering with heart trouble, and had been for two years. I had pain in my heart, back and left side, and had not been able to draw a deep brenth for two years. Any little exertion would cause palpitation, and I could not lie on my left side without suffering. They advised me to try Dr. Miles Heart Cure and Nervine, which I did with the result that I am in better health than I ever was before, having gained 14 pounds since I commenced taking it. I took about thirteen bottles of the two medicines, and haven't been bothered with my heart since."

C., stating that Matthews had recently died at that place and making inquiries concerning his wife and two children, whom he had made Mr. Zed A. Bennett, the insurance beneficiaries of his will. McCarter tal value of the property devised under the will.

Mrs. Henrietta Matthews, the deserted wife of W. S. Matthews, and Abraham Matthews, one of their children, are now living at Rocky iff W. D. Bishop's family. Rev. Hill station in Edmondson county, Smithson has just closed a successful Ky. Sampson Matthews, the other son died several years ago.

Neither Matthews nor his wife ever applied for a divorce, and neither was ever married again.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make ly. J. B. Vaughn, Elba, Alabama, writes: Being a constant sufferer All that is necessary is a few doses from constipation and a disordered liver, I have found Herbine to be the best medicine for these troubles on the market. I have used it constaut ly. I believe it to be the oest medieine of the kind and I wish all sufferers from these troubles to know the good Herbine has done me.' At Woods & Orme's.

Old Relic From Jerusalem

The Bowling Green News in a recent issue tells the following of a much to be appreciated present that was made past Graud Master Gerard, of that place. The News says:

·Rev. M. F. Has has presented to Past Grand Master F. C. Gerard, a Masonic gavel. It is made in the tive sermon. Everyone seemed to shape of a hammer from pure white first class material and a high grade stone from the quarries at Jerusalem, of workmanship is our speciality. from which stone was takeu for the building of Solonion's temple. On the face of the hammer is the Masonie emblem of the square and compass. It is not necessary to add that it is a gift greatly appreciated by Mr. Gerard."-Bowling Green News.

Cures Hay Fever and Summer Cold.

"A J. Nusbaum, Batesville, Ind. writes: "Last year I suffered for 3 mouths with a summer cold so distressing that it interfered with my court of appeals, was here this week business. I had many of the sympealling on frieuds. The judge is toms of hay fever and a doctor's prescription did not fit my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Houey of Tar, and it quickly cured me. My wife has since used Foley's Has been discovered. It bears a Honey and Tar with success. Woods

SUNDAY SCHOOL TEACHERS' TRAINING CLASS

LESSON XLII.

There is no Sunday School 1a this week's readings.

DAILY MANNA.

Sunday, Aug. 12, They arise from the table, Jno. 14:311. Monday, Aug. 13, Discourse-Fruitfulness, Jno. XV. Tuesday, Aug. 14, The Comforter, Jno. XVI. Wednesday, Aug. 15, The Intercessary Prayer, Juo. XVII. Thursday, Aug. 16, They sing a hyun, Mt. 26;30a; Mk. 14:26a. Friday, Aug. 17, Departure to Gethsemane, Mt. 26:30b; Mk. 14:26b [Lk. 22:39; John 18:1ab.

Saturday, Aug. 18, Arrival at Gethsemane, Mt. 26:36a; Mk. 14:32a; [Lk. 22:40a; Jno. 18:11.

HELPS TO STUDY.

It seems that after the supper was completed and Christ had spoken the discourse recorded in the fourteenth chapter of John, that they arose from the table as if to start for the Mt. of Olives as usual. (Lk. 22:39.) It might have been on the way, but more probably in the room after they had risen, that the discourses of the fifteenth and sixteenth ehapters of John and the prayer of the seventeenth chapter was uttered. It was at least before they crossed the brook at the foot of the temple hill. (Jn. 18:1)

In Jno. 15:1-8 we have the allegory of the vine. In this are set forth the conditions of fruitfulness. We see the husbandmen's care of the vine how he prunes it and cleanses it from the insects that would destroy its fruitfulness. In this we see God's love and eare for the church, the vine of his own planting. We see the necessity of ahiding in Christ on our part and having him abide in us. "For without me ye can do nothing." We see the importance of having his word abide in us and of earnest prayer; for it may be said of these conditions of fruitfulness as it was said of the christian virtues, "For if these things be in you, and abound, they make you that ye shall neither be barren nor unfruitful in the knowledge of our Lord Jesus Christ," 1 Peter 1:8. "Hereiu is my father glorified, that ye bear much fruit," Jno. 15:8.

In the rest of this fifteenth chapter, John speaks of Christ's love for is an unusually attractive and bright us and our love for him and for one another. This love brings us into young lady, and while she is yet elose friendship with Jesus Christ. We are more than servants; we are intimate friends and may know the will of our Divine Master. He warns new duties in a way that insures snethem that the world will hate them. If the world hated Christ and mis- eess, and the promoters of this school treated him and put him to death, his disciples need not expect better

Then follow those wonderful words in regard to the Comforter. was expedient that Christ should go away. In his physical form he could upon our people. —Cadiz Record. not dwell with everybody at onee; hut the Holy Spirit could dwell is the heart of every christian and he a very present help in every time of need; It would be his mission to reprove or convince the world of sin. of righteousness, and of judgment. He should testify of the Father, or reveal the will of the Father. He would guide the followers of Christ into all truth, In this world so full of error, how we need to be divinely guided into truth. Christ says, "He shall glorify me:" that is, the Holy Spirit shall glorify Christ. He does this by taking the work of Christ and showing it unto us causing us to see it in its true light and to appreciate it; he takes the work Christ has wrought out for us and applies it to our hearts and lives, makes it efficient for us.

In the seventeenth chapter of John occurs the wonderful Intercessory prayer of Christ. It is the heart of Christ running out for his followers. He prays for that perfect unity to exist between his followers that existed been him and the Father. Amid the sobbing of that earnest prayer they sing a Psalm and depart across the brook Cedron to the silent shades of Gethsemane. Here in the silent midnight the great Olive trees threw out their branches to the rustling of the passing breeze. Here the full moon shone in silent watchfulness, darting her silvery rays through the massive branches of the clives and easting weird and fantastic figures on the sward beneath. Breaking the monotony of the silent seene was Christ and eleven of his disciples passing noiselessly to the deeper shades of Gethsemane.

Methods in Teaching.

I Tho approach to the lesson, or how to begin it. Often there is great difference between the teacher and the pupil-a difference in age, a difference intellectually, a difference socially, a difference in home life. These differences must be thrust aside or so arranged by the teacher that they will prove no barrier between him and the papil. The teacher should recognize each scholar and speak to each one, if possible. ia a pleasant manner before they meet in the class. Try to secare freedom from interruption. Only in this way can you hold their attention. You should iaspire a home-like feeling in the class. This will conduce to ease and naturalness among the pupils. Arrange your class so that you can see each member. Teach with an "emancipated eye," one that can see every monument of every pupil. Link the past lessons with the present by a brief review of the past lesson or lessons, The teachers thorough preparation will shine hrough his face and manner and will attract the class. "A man's wisdom maketh his face to shine," Eccl. 8:6.

TOPICS FOR STUDY.

- The allegories of the Bible.
- 2 The Holy Spirit, a Names, b What he does for us.
- 3 Christ's prayer. 4 Intercessory prayer.

SEARCH QUESTIONS.

Where were thoy when John XV, XVI and XVII were spoked? What is mount by taking away the branches that do not bear fruit? 3 hat is meant hy purging those that do bear fruit? 4 What are the conditions of fruitfulness as expressed in this allegory? 5 What is reat requirement of Gods's servants? 6 What is the relation between and believers? 7 What warning did he give them? 8 How can ly Spirit be of greater help than even Christ's presence? ,9 What fice of the Holy Spirit? 10 What is the unity prayed for in the h chapter of John?

He Falls 17 Stories.

Cincinnati, Aug. 10. The occupautof the offices in the eighteen story First National Bank Building, Fourth and Walnut streets were startled this afternoon by most agonizing shrieks.

They were made by Edward Westerlund, an elevator conductor, as he shot down the shaft from the seventeenth floor and was crushed to death on the concrete floor of the basement. The man was at work when a eab in an adjoining shaft eaused him to lose his balance and pitched downward. As if realizing his fate, he shrieked with terror.

Unnecessary Expense.

come on without warning, and quick which he will have control. Mr. relief must be obtained. There is Wheateroft not only built two lines no necessity of incurring the ex- of railroad, but established the thrivpense of a physician's services in ing town in that territory which such a case if Chamberlain's Colie, bears his name. Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor When your child has a severe cold? could arrive. It has never been You need not fear pneumonia or othknown to fail, even in the most se- er pulmonary diseases. Keep supvere and dangerous eases, and no plied with Ballard's Horehound Syrfamily should be without it. For up, a positive eure for colds, eoughs. sale by Woods & Oruc, the leading whooping cough and bronchitis. Mrs druggists in western Kentucky.

OLLIE RETURNS FROM LONDON

Congressman O. M. James returned to the city Sunday morning, coming direct from New York, stopping only between trains at Louisville. He is the picture of health and happluess and seems to worry very little over the rumors of his eandidacy for the various offices from Congressman to Vice-presideut.

It is said Mr. James met W. J. Bryan in London, but the PRESS is of the opinion he visited Egypt also and the Nile and while there must have taken some lessons in silence Mashed Potatoes innounce W. From the Sphing. He is positively non-commuittal on his position in the race for governor, only saying he has uot made up his mind what he will Sliced Tomatoes do. The people all over the state are much interested in his decision and from present indications it would seem that he would have a strong following should be enter the gubcrnatorial race.

How Joan Took the Country

By BELLE MANIATES

Copyright, 1906, by P. C. Eastment

When Joan Williams, who had taken first prize in the school of photography, and her friend, Lucile King, stepped from the platform of the little station near the furm where they intended to spend the summer, they at first saw no one waiting for them.

Joan's quickly moving eyes covered the whole scene in appreclation. The coiliding and josting of incoming and outgoing passengers, the frantle baste of belated travelers contrasting with the exasperating leisure of the ticket ageat, the jogging pace of the man bebind the baggage truck, the vociferous voiced driver of the bus, besieging passengers to ride to the Pullet House; the passive miened driver of the one shabby hack, formed a series of most reallstic pictures which made Joan touch the button many times.

A peculiarly fashioned horse attached to a two seated democrat now drove up. Joan was somewhat in doubt at first as to the genuineness of the animai, which seemed to her to have a homemado aspect. The driver was gazing into space, with no manifest laterest in the arrival of the truin.

Again she touched the button, while Lucile, who had speat the summers of two years in this vicinity, went quickly up to the newcomer.

"Why, how do you do, Mr. Bates? This is my friend, Miss Williams." The girls occupied the back seat of

the vehicle. Mr. Bates uttered a mlld "Geed-ap!" and the horse made a forward movement, tearing away in clumsy gallop across the long bridge, at the end of which he settled down into a nippy little gait. "Old Hundred didn't omit his usual

bridge sprint," observed Lucie.

"Old Hundred! He doesn't deserve such a cognomen," observed Joan.

"You will think so. He hasn't settied down into his snalliest pace yet," "Geed-up!" reiterated Mr. Bates, roused to effort by this insinuation and smartly siapping the reins across the steed's ample back,

"He docsn't 'geed-ap' very fnst," commented Joan.

"Do you earn your own living, too?" asked the old man, turning to her quiekiy.

"I hope to," she repiled modestiy. "I take pictures. I expect to take your whoie country."

"I hope it brings you more than writing poetry," he said, with a glance at Lucile. "The Hedgeton Gazette only pays for it in subscriptions and trade."

Joan gave an ecstatic laugh. "But Lucile writes for big magazines. She is paid by the word." "You don't tell me! She must be

awfui rich." "But sometimes I sit for hours and

ean't think of a word," confessed Lu-

"Words are plenty enough," he deciared scornfully. "You can get them out of a dictionary."

"I never thought of that," she repiicd naively.

At nearly every farmhouse en route Mr. Bates "whoaed" to deliver purchases. Now it was the farmer's wife who came out to the wagon and agsin it was a bashful boy or n giggling girl. In every instance Joan's camera was netive.

The last commission was not delivered at house or in person. Mr. Bates stopped in front of a barn near the roadside and there deposited a suspielous looking package. Farther on they met a farmer who looked at them "Put it in the barn, Fred," said Mr.

Bates significantly. "All right." Bestowing a knowing

wink upon his purchasing agent, Fred

bastened forward. "How are the Locke girls?" asked Luclie. "And do you aii help them as

much as you did?" Mr. Bates then related a pathetic story of the misfortunes of the Locke "girls," who had lived together for seventy odd years in the little tumble down house with its sparse garden

patch. The mortgage had been foreclosed. Roxy's sight had failed ber, and she was unable to do the "piecing" and quiiting by which they had helped eke out their living. The poorhouse was looming up in

their horoscope, though the neighborn were preparing to give a barvest bail and bestow the proceeds therefrom to the averting of this calamity.

By the time this narrative was finished they had reached the farmhouse the Bates household, and Mrs. Bates et the "city folks," who their "bedroom off the

> e stock seem to be making a entrance," said Joan presently, the curtain. "Through the hole sereen door some chiekens are On the stairs are a multi-, and a stray sheep-I think bleats on the back steps. ending the dog for the bring them into the

scratch their backs on the floor, and ft rocks the bouse a little, but it's

"Lucile," said Joan gravely when their hostess had returned to the kitchen precincts, "I had thought of naming this delightful pisce Noah's Ark, but now I think the Hogs' Back will be more appropriate."

At breakfast Mrs. Bates gave more particulars of the disasters that had attacked the Locke household and asked to enlist their help in the forthcoming bali. Joan appeared abstracted and offered no suggestions. Lucile proposed a fair in connection with the dance and began to ply her needle in the fashioning of sofa pillows.

The next few days were devoted by Joan to long solitary rambles, in which she nlwnys carried her camera,

"I think I have took the whole country," she aunounced one day. "I am going to send the plates to the city for development, as I haven't the facilities

The day before that set for the fuir and dance a huge express package was brought to Joan, but she refused to show the conteats to any one.

On the momentous evening she went to the big barn where the dance was to be held an hour in advance of the time set. When the Butes household arrived they saw her seated demurciy at a tabie surrounded by a group of eager, chattering folks. An artistically lettered sign read:

"Would you see yourself as others see you? Come and find yourseif! If not here, faces made to order at future date.'

Lucile and the Bates family hastened to the table, which was covered with photographs of all styles and sizes, snapshots of the country folks in and about Hedgeton caught in unpremeditated poses-Farmer Lange hooking up the team, Mrs. Lapps feeding chickens, Bessie Graves churning, Jed Strackbom nilking, the little Biatchfords going blackberrying, Lane's Carlo bringoverbooked.

Also there were pictures of home, barns, cattle, the church, the cemetery, schoolhouse, sawmili and many old landmarks, all on sale, not to mention pictures of the Looke girls.

The news spread, and every newcomer hastened up to see if his likeness was there. Ardent swains secured pictures long denied them by eoy damsels. At the close of the evening her hand bag was well filled with colu.

"This," she said, extending the money to Mrs. Bates, "Is my contribution townrd the Locke estate."

As she suspected, she was besieged for many days by people from miles around who heard they had been "took." If by chance one had been overlooked, the omission was remedied.

"I think," remarked Joan meditatively as she looked a last fnrewell from the car window on her return to the city, "that the country and I are now on intimate terms, and with the sale of pictures and proceeds of the dance, not to mention contributions from the neighbors, I can see at least two years of prosperity for the Locke girls."

The Farmer's Individualism.

Farming is virtually the only great series of occupations that is unorganized, unsyndicated, unmonopolized, uncontrolled, except as it is dominated by natural laws of commerce and the arbitrary fimitations imposed by organization in other business. In a time of extreme organization and subordination of the individual the farmer still retalus his traditional individualism and economic separateness. His entire scheme of life rests on intrinsic enrning by means of his own efforts. The scheme in most other businesses is to make profits, and these profits are often nonintrinsic and fictitious, as, for example, in the habit of gambling in stocks, in which the speculator by mere shrewduess turns over his money to advantage, but earns nothing in the process and contributes nothing to civilization in the effort. If the farmer steps outside his own realm he is met on oue side by organized capital and on the other by organized labor. He is confronted by fixed earnings. What he illinself secures is a remainder left at the end of a year's business .-

The Alps Will Be Washed Away. The Aips, from a geological point of view, are very recent. The Welsh hills, though, comparatively speaking, insignificant, are far more ancient. They had been mountains for ages and ages before the materiais which now compose the Rigi or the I'llatus were deposited. Indeed, we may say that It is because they are so old that they have been so much worn down. The Aips themselves are crumbing and being washed away, and if no fresh elevation takes place the time will come when they will be no loftler than Suowdon or Helveilyn. They have already undergene enormous denudation, and it has been shown that from the summit of Mont Blanc some 10,000 or 12,000 feet of strata have been already removed. Denndation began as soon as the land rose above the sea and the mais river valleys were excavated .-Pearson's Weelely.

What It Cont.

In a little town in England not long ago the entire family had been at church and the young minister was coming home to dise with them. While at dinner they were thecussing the new aksined glass window a member had given. "It is a most benetist piece of weakmanship?" said one, "and must have cost a grand deal of monex." "Do. have cost a green deal of money." "Do. you have all idea how much?" "I really to no "septied the minister, "but fer total the hundreds, I should imagine." "No it didn't," said free, "Though, "I know how much it was. It how much it was. "Why, Harold, how

The Jackson Times in speaking of the Lentz & Roberson Show, says: 'The performance given by the Lentz & Roberson Show yesterday was a success in every particular. The big crowd which filled their tents in the afternoon was one of the largest seen here in many years, and at night the sale of tickets was stopped before the perfomance commenced as every seat was taken, nll available stuading room filled and hundreds were turned away. It was certainly a most flattering approval of the performance given in the afternoon and every one was well pleased. Should this show visit Jackson again they can certainly expect to draw a large

Of the Cumberland Church held at Dawson Springs Aug. 9th.

Princeton Presbytery of the Cumberland church met according to announcement at Dawson Springs, Ky., Aug. 9th 1906.

After devotional service a quorum being present Presbytery was e nstituted with prayer by Rev. 1

H. N. Lamb was elected as emporary elerk. The moderator then read the call.

Rev. Arther C. Biddle presented a letter of dismission and recomendation from Pittsburg Presbytery Pensylvania Synod and was received into the Presbytery.

The roll was called and the following answered to their names, A. C. Biddle, I. G. Joiner, J. R. King, J. B. Lowery, W. T. Oakley, G. L. 170 Woodruff and J. L. Price.

The following congregations were represented.

Ashland R. C. Hendrix bad W. J. Nunn and Blackford J D. Leech black Bethlehem W. E Sprague on Caseyville N. Little Cave Spring Dawson J. A. Boitnott Flat Lick L. T. Summer (alt) The D. W. D. Moore which Flat Rock Hopewell Hopkinsvalle Mount Carmel Mount Pleasant J. M. McGraw Liberty S. M. Horning R. P. Hill Nebo New Salem J. C. Moran Oak Grove Union Mr. Lofton (alt) five years I was troubled with kidney Piney Fork W. F. Wilson Rose Creck Elijah Hughes Sturgis Sugar Grove H. N. Lamb Weston J. W. Gahagan N. A. Sowell E. R. Overby sent exouses which were received as satisfactory.

The clerk was instruced to write a kindly letter to B. F. Jacobs, R. H. Anthony, M. E. Chappel, P. D. Tueker and James F. Price asking them if they desired letters of dismissal from Princeton Presbytery.

On motion Bro. Elijah Hughes was scated as delegate from Sturgis congregation.

The following resolutions of loyal ty to the C. P. church were offered by Rev. J. L. Price and adopted.

Whereas, believing that the mission of the Comberland Presbyterian church is not yet completed that her history as a seperate organization, perpetuated and her doctrines held in tact.

Therefore Be It Resolved.

1st That it is the sense of the members of this Presbytery in called session at Dawson Springs, Hopkins Co, Ky., Aug. 9th 1906, to remain true to the Cumberland Presbyterian church, and that we respectfully decline to go into the Presbyterian ehurch U.S. A.

2nd That we endorse the action of the minority of our commissioners in the General Assembly at Decatur, Ill., in electing Rev. J. L. Hudgins, of Union City, Tenn., as moderater and Rev. T. J. Padget, of Memphis, Tenn., as stated clerk, to fill the vacancies occasioned by the desertion of Rev. Ira Laudrith D. D. aud Rev. J. M. Hubbert D. D. from their, respective statious.

3rd That all legislation of this Presbytery be planned and directed to the perpetuation of our congregations in the Presbytery, and the suppart of the new boards, as appointed by the General Assembly of 1906 at Decatur, Ill.,

· A committee composed of G. L. Woodruff, J. L. Price, J. D. Leech, A. C. Biddle and W. M. Wilson was appointed to aid churches which were in danger of losing their property.

The clerk was instructed to becure the records of Pripoeton Prestlytery nd to assertain what funds were in

BIRDS OF ILL NATURE.

The Crackty of Swans as Displayed

The graceful swan is one of the most ungracious in its ways. Not only (in the breeding season) does a male bird resent the intrusion of a strange gentleman, but it will spend the day in driving off from its domain any unlucky geese which might be plainly assumed to have no designs upon its domestic arrangements and have, indeed, no desire beyond that for a comfortable wash and swim. It will also pursue even the most innocent of newborn ducklings while they unwittingly rejoice in an early taste of their common element.

When an only child has passed out of the eygnet stage of life and grown to full physical if not mental maturity father and mother swans have been known to fall upon and deliberately beat it to death with wing and beak. The gratified parents swam gracefully about the mere in which they lived while the great white corpse of their son lay buttered and dead upon the shore. The following year, after another had been born to them and in infancy carried upon his mother's back, they began to treat him so roughly that, not being pluioned like them, he wisely flew away, and we saw him no more. Curlously enough, geese which have experienced rudeness from swans In the lusty spring have been known to retaliate in the ealmer nutumn, when the flerceness of their enemy had become mitigated. I have seen a gander leap upon the back of a once arrogunt swan and pound away at it in the full enjoyment of gratified revenge .-

THE NATIONAL FLAG.

No Possession of a Country More Loyally Loved and Revered.

There is no possession of a country which is more deeply revered, more consistently loved or more loyally supported than its national flag. In our country is this especially true, for in that one emblem are embodied all the principles which our forefathers upheld, all the benefits of a century and a quarter of enlightened progress and all the hope and assurance of a promis-

The stripes of alternate red and white proclaim the original union of thirteen states to maintain the Declaration of Independence. Its stars, white on a field of blue, proclaim that union of states constituting our national constel lation which receives a new star with overy state. Thus the stars and stripes signify union and "in union there h strength."

White stands for purity, red for valor and blue for justice, together forming a combination which it is our inherited privilege to honor and uphold.

It is not the flag of a king or an em peros er a president. It is the flag of the people, bb. in into being by their will, defended when necessary by their patriotism and to which they turn for protection in time of danger. No matter into what parties our people may be divided, due to political beliefs and leanings, they all stand united under one flag. It is the emblem of unity, safety and faith.-St, Nicholas.

Word Fashlans,

The history of the word asparagus shows how, even in the days of diction- ed 14e. aries, word fashlons change. In the eighteenth century, even in elegant nsage, the delicacy was regularly called "sparrow grass." A dictionary of 1791 says that "sparrow grass" is now so general that "asparagus" has an air of stiffness and pedantry. "Sperage" had been the usual English form in the sixteenth ceatury, but in the seventeenth herbalists brought back the orig-Inal Greek and Latin spelling "asparagus." Pepys varies between "sparrow grass," "sparagus" and "sporague," No rhenmatism, buras, cuts, contracted doubt the eighteenth century relapse was the last, and the "a" is back for

Hogs and Storme.

Hogs are always more restless than usual on the approach of bad weather, and when these animals run to and fro with monthfuls of straw, leaves or branches the Indication is for very foul weather, in their native state plgs probably made their own beds, and when bad weather was coming perhaps gathered a larger supply of straw or leaves than usual to serve as

Fireworks. Fireworks originated in the thirteenth century, along with the evolution of powder and cannon. They were first employed by the Florentines, and later the use of fireworks became popular in Rome at the creation of the popes. The first fireworks, which resemble those which we see nowadays, were manufactured by Torre, an Itallan artist, and displayed lu Parls in

Consolution. "So you are still numarried," said the

"Yes," nuswered Miss Cayenne. "And when I see the disappointments of the girls who are married I begin to believe there is, after uil, something in this doctrine of the survival of the fit-

test."-Washington Star. Experience.

Mother-Now, Tommy, you know what happens to little boys who are naughty. Tommy-Yes, I know. Their papas give 'em a licking, and then their mammas pet 'em und klss 'em and give 'em nice things to eat.-New York

In the Smart Little Trap

By VIRGINIA LEILA WENTZ

Copyright, hus, by Homer Sprague

"And he has, the smartest looking trap you ever saw, Madge! It's champagne colored and a perfect love. What do you bet I don't land him, trup and all, before the summer's flown by?"

Miss frene Warden, a beauty (and aware of it), was writing to her girl chum concerning the bachelor who had just taken the blg colonial house with the carringe road and Iron archway which for several sensons now had abandoned hope of usefulness.

She was writing by an open window where the scent of the roses came up from the front garden. Beyond lay the pretty tree lined road over which the bachelor and his champagne colored trap had just tlown by.

"Although I've told you his name is Homice Matlock," ran on Miss Warden's pen, "I haven't told you what he looks like. He's an old man, forty or fifty, I should say. Ills nose is rather too blg, although people call him handsome, and he's a blt buld, but, then, I suppose most men who live in hig houses and drive smart traps have big noses. What?" Miss Warden smiled a dittle soft smile into the glass above her dressing table and then bent over ber portfolle agalu:

"Of equise I'd prefer dear old Tom. He's young and stunning and sings college soags so beautifully, but, as you know, he hasn't a red! And I really must do something this summer, My already meager allowance Madge. will be ant considerably in the autumn, for ln September pa's going to enter the matrimonial game himself a box 'step lively,' in the parlance of street

car officials. "In point of fact, though," pursued pluln salling. I inven't a single good Charley Gifbert and Billy Shewmaker place except old Professor Thornton's wanted. Miss Cora Buckner is visiting if they don't quit fishing for "Pearls" daughter, and she's the quietest poke | The next day Miss Worden wrote to of a girl-a regular stay at home. And as for dressing-well, Madge, you and vells. I reekon, as she does on her whale outfit. That's what comes from

postoffice a friend presented Mr. Horace Mntlock to Mlss Irene Warden. Apparently the meeting was by acci-Eva Hickman, of Hillsboro, Ills., dent. but Miss Warden felt her smooth are visiting relatives in this commun- cheeks flush, and her habitual composure was rippled for a second, while, for fils part, Mr. Matlock scarcely look-J. U. G. Cleghorn, our worthy ed at her and, having passed a conventional "glad to meet you," lifted his road overseer, warned the boys out but politely and walked out to his

"I had on my chic volle, the one Aunt Tessle sent me from Paris, you know," wrote Miss Warden to Madge, "and my hig white hat with flopping fuchsias. But it was all rank waste." She couldn't understand lt. Her

dreams hadn't ended that way at all. One day in the tiny idle little bank Mr. Horace Matlock stopped short as he recognized a stooped, gaunt figure with a patrician face.

"Why, It's Professor Thornton, lsn't lt?" he cried, stepping up to him with a cordially outstretched hand.

When Matlock years ago had entered Yale as a freshman Thornton had been sprung up between them. Subsequentthey had lost track of each other. But the satisfaction of the younger man in meeting the older one again was genulue.

"Poor old professor! How thin and worn and aged he's become?" thought any motive whatever short of a neces-Matlock as he drove the professor home to his modest little cottage.

Out in the cottage's side yard by the hollyhocks a girl was pleking a great hunch of sweet peas for the lunch table. When she heard the smart little trap stop at the gate she looked quickly up from the hlossoming vines and wondered. Who was the distinguished looking stranger? And where had be pleked up dear daddy?

A few days later Mattock drove up to the cottage again. It was only decent, he told himself, that he should show the professor some attention and take him driving now and then. Lechaps some day also be would take the pro-fessor's daughter. He liked her. He liked the natural, unabashed way, in which she had nelsnowledged her fa-ther's presentation of them, with her sleepes rolled up and her arms full of sweet peas; he liked the width between her eyes, the brendth, of her brow, the lines of her mouth. She was less much ty than many young girls, but there was about her a freshness, a sweet-ness, that pleased blue, and he had noticed that her figure in her simple lit

le gown was well molded and slim, One evening toward twillight, when out in the open lawn bats were whiriing aimlessly and tirelessly, Matlock dropped in upon the professor to make blin a little call. He had fetched him bls afternoon mall us pretext. While they were sitting out on the porch from the shudowy little parlor came the first chords of Beethoven's beautiful "Moonlight Sonata."

"That's Cyuthla," sald Professor Thornton in answer to his guest's start of surprise. "She's never too tired, no matter how hard or long the dny hus been, to play that sonata for me in the evening. I love it above all other written music, and she never forgets."

Then while the tree tonds droned their harmonies be told Matlock a little about his daughter-how four years ago he had suffered a paralytic stroke and she had been obliged to leave school in her graduating year and nurse him night and day with untiring sweetness; how, when their slender lucome was exhausted a year back, she had begun to make use of her musical skill and give lessons on the plauo. And when the professor told of Cynthia's triweekly trips to Adams, the hearest town, his silvered head went down on his coat sleeve, and in the gloaming behind the honeysuckles the two men were slient.

Presently they smoked their usual el gars and indulged in their usual conversation - newspaper toples chopped fine by Individual opinion, a good deat of politics, a little of art and science.

Last of all, Cynthia came out,
"helighted!" she said, going prettily up to Matlock with outstretched hunds "While you two have been gossiping" I've been remembering your weakuess for tea and have drawn you a cup. Will you come in, or shall we have it

They went in. Near the little fern screene l fireplace was a tea table, dainty in its array of polished silver and thin china. The hanging lamp shed the rich, soft glow of olive oil, and there was an air of latimate homelikeness about everything. Matlock had been a stranger to that sort of thing for so long that it sent a-kind of thrill shivering through him. After all, to have a cozy tea table and a slim white hand to inclose in yours-Cynthia's hands were slim and white enough as they moved among the china In the half light. He pulled a chair close for the professor, and then sat down hlmself.

Before Mr. Horace Matlock went to hed that night he remembered that on the morrow Cynthla Thornton was to drive with him la his champagne colored trap. How it would harmonize with her soft hair before the ambitious sun touched It to gold! What a dear, womanly little treasure of girlish brightness she was, anyhow!

Cynthla only returned from Adams the next day a hulf hour before, her drive and was, consequently, a hit tired. Sile was not one to make conrld, designing widow too! So I must versation, and the quiet and heauty of the scenes stretched out before her made her very slient. Matlock, as he handled the reins, watched both her the voluble pen, "It'll be pretty easy, and the landscape. There was a certaln peace about them both. And looking rival up in this out of the wny peace was, above all things, what he

her girl chum again: I spend as much on our gloves and Madge, dear, I wrote you that a certain matrimonial venture would be 'easy, plnin salling.' Alas! I'm afraid I shall never find port-not, at least, The next week in the little village with my bachelor up on the hill. And in the name of wonders, who of nil people do you suppose has taken the wind ont of my salls? Cynthia Thornton, the old bookworm's daughter! He had her out driving in that little beauty of a trap three times during the last week to my knowledgel I'm afrald Cupid isn't very kind to me. You'll flud f'll dle an old mald after all, unless Tom"-

> At this point Miss Warden's pretty teeth absently eaught the top of her penholder, while she looked dreamlly toward the sunny, tree lined street. Then she began to hum.

> As she started on the fourth bar of her song a champagne colored trap skimmed by. In it was the charming bachelor, and hy his side was Cynthia

A Mussulman's Ideas,

A respectable and honest Mussulman and of course there are millions of Mussulmans entitled to that descriptlon-will not swallow alcohol if be knows it, even for the good of his tutoring, and quite a friendship had health; will not lift "the harem veil," even if lifting it is essential to the life of his wife or daughter; will not take ont an insurance, even when failure to do so is rulnous to him in a business competition, and will not in a country ruled by Mussulmans from sity such as destroys freedom of will accord equality to men of any other faith. In these respects he is a "fanatle"-that is, he will act upon the precepts of bls creed as interpreted by its doctors without reference to any other consideration, and especially without reference to convenience or to the epinlons, moral or otherwise, of men of any other, faith. A Mussulman's creed is for bim the operative law, as oustom is for a Chinaman, or a custe rule for a Hindoo, or duty for a good Engilshinan, or that which is convenient for a respectable Frenchman, and though there are points upon which he will break the law, especially for gain, there are also points, especially those we have mentioned, upon which he will not rather will be chopped in pieces or chop you and take all consences serencly. - London Specia-

and it was in this spirit that he undertook the biggest task of his career.

THE RECORD BUILDER OF RAILROADS.

An equally restless and hard worker is Mr. Stevens. He is every bit as true a friend and a good hater. He also is able to inspire the enthusiasm of men under him. He, too, knows railroading from top to bottom, is of the Middle West, and accepted the President's offer largely because of his love of doing things that look hard.

In the twenty-nine years that he was connected with railroads in some engineering capacity Mr. Stevens managed to construct more miles of railroad than any other man in the world down to date. He began to build track in '76, as engineer and superintendent of surveys of the Sabine Pass and Northwestern Railway. Two years previously he had begun his engineering career as assistant city engineer of Minneapolis. He was then twenty-one. When he left the railroad

orld he was chief engineer.

Sidelights on the Fox and Stork preparing it. He caught the turtle

"You were speaking about those old dinners that the fox and stork gave to each other," said the Rattlesnake, as he uncoiled himself slowly and readjusted his thirteenth rattle. "Yes, I was there." "You there?" said the Mud Turtle.

'You are not mentioned in the Fable.' Well, the author was not an acute observer. I was there in an official capacity. To be sure, I did not receive an invitation on monogram paper, and didn't sit in the parlor. I was the dinner gong.

"Dinner gong! Do I quite understand you?" said the Mud Turtle, politely. "Yes, I rattled my tail when dinner was ready. Lucky I was there, too. I

saved them from indigestion at their own 'How was that?"

"Well, you see, I was on to the game, so to speak. The day before Mr. Fox gave his party I strolled in and saw how the land lay. He had a mighty fine menu -turtle soup it was, if I remember

The Mud Turtle shuddered as if some one were passing over his grave. "Don't be nlarmed. They don't make

"Overwrought nerves. I wish you soup of mud turtle," said the Rattle-were coming with me to Egypt. Think of it. I'll put off my journey to suit your Mr. Fox had turtle soup, and it was of Mr. Fox had turtle soup, and it was of the Mud Turtle. "There was chicken convenience; it will do you all the good a flavor! He was the whole day before in it, too."

self. It was a small one so he p it out with chicken. It was flavo with sassafras and snakeroot and w mustard, and was cooked to a delicit hardly keep myself in proper coil.

My mouth watered so I cou hung around and helped fetch firewoo and every time he stirred it I had a sur reptitious lick at the spoon. Uncle Fox he set out the table, and I was planning one of his cute games. Very soon I perceived that my suspicions were correct. There was only one dish-a large

one, but shallow to a degree." "Skip that part," said the Mud Turtle.

"That's history."
"I skip to the morning of the party.
Mr. Stork was to come early; Uncle Fox poured the soup out of the kettle into his one dish; I got the scrapings, and they were extremely small. Being only the dinner gong, I wasn't considered in the bill of fare.

"Pretty soon Mr. Stork arrived, and Unele Fox met him at the door with a pleasant smile, and they exchanged compliments and the weather, and talked a little about the coal strike, and its ef-

fect on the price of firewood.

"And all that time I was alone in the dining-room with that delectable turtle

"Can't you call it chicken soup?" said

but it's not so stylyour sake. Whi was left alone with en soup, and I be have stood it?" knowledge of the Mud Turtle, at didn't bother ot in it, too, but ither. I took a ight, 'Uncle Fi gets it all. cs?' Then I to r that I took a

few morsels of and by that time it has like ebb-tide in the dithought perhaps I had better gong, which I did. I heard it invite Mr. Stork to the table of thought it best to be out of slaved crawled off. Uncle Fox looked an ished when he saw the dish, by he couldn't say anything to me, I behi hid in the pantry. He invited Mr. Stork to partake, and began lapping greedily. Of course, Mr. Stork-

"Skip that, plcase." "Well," resumed the Rattlesnike. "Uncle l'ox was saved from an illness by my forethought. I thought the affair quite a success. Mr. Stork was most polite, but went home soon after supper, and I heard him down by the creek grumbling away, as he hunted for fish

"Not very many days after, when I was just getting my chicken soup nicely digested, Mr. Stork sent his invitation to Uncle I'ox, and I offered my services as butler. Mr. Stork likes style, and I got the job. I need not tell you that I was able to repeat my little ruse. Mr. Stork served frog bisque in a tall vase, which was just as easy for me, being in this convenient way, you see. Stork got what was left, while Uncle fox leaned up against the vase and cooked hungry. I dld my buttling as hungry. I dld my buttling as y as possible and slipped away be-

for the party broke up."

there a!!," said the Mud Turtle, be domestic like the Stork is well; sunning like the Fox is better; to havenless as the turtle (dove) is all light enough, but the wisdom of the deepent is best of all."

A young man had been calling now and then on a young lady, when on night, as he sat in the parlor waitin for her to come down, her mother en tered the room instead, and asked him in a very grave, stern way what his intentions were.

He turned very red, and was about to stammer some incoherent reply, when suddenly the young lady called down from the head of the stairs:

"Mamma, mamma, that is not the one." Philodelphia Ledger.

Does not talk but draws \$20,000,000 a year in dividends from one Copper

The world's greatest financiers have seen the possibilities of Copper; they are pouring their millions into Copper stocks; they are piling up their dollars mountain high with dividends from Copper stocks; gold mines no longer interest them; the cry is—"Copper!"

Copper is the Safest-the Most Profitable-the Most Permanent Investment in the World Today

Copper is a Safe Investment

The uses of Copper are extending every year. The demand is far ahead of the supply. All the present production of Copper in the world cannot supply the demands of electricity alone. All scientists agree that we are just beginning to learn the uses of electricity. As these uses multiply, so will the demands for Copper increase. The price is steadily going up. In the last few years it has risen from Itc to 19c a pound.

Thomas W. Lawson says: "A good Copper mine is really a construction of stored up a riderals which cannot be stolen or destroyed by fire, mood or

THE COPPER MINE IS THE MINE OF TO-DAY.

Copper is a Permanent Investment

No man can tell how long a good Copper mine will last, because no man has ever seen one exhausted. The Rio Tinto mines in Spain have been worked for over two thousand years, and last year they were the, third largest producer in the world. The Mansfield mines in Germany have been worked for seven hundred years, and last year they were the sixth largest producer. Copper was discovered in this country in 1845, and in the Lake Superior district the levels are a mile below the lake, yet last year they produced more cooper than ever before in these history. The samous Anaconda mine is steadily increasing its production. The United Verde in Arizona is turning out more and United more Copper every year. No real Copper mine in No this country has yet been exhausted.

ig thousolidated Copper of Mining Co. undinssay Certificates, Samus of Ore, etc.

We have 200 acres with Copper ore sticking ont on every claim, and a 10 foot shaft has been sunk on Copper Iodes on each claim.

All this shows the presence of an enormons Gopper deposit. In short, beyond the possibility of doubt, there is Copper ore on the Company's land sufficient to keep an enormous plant running for generations to come. Wa do not believe there is any such showing of Copper as this property and this district exhibit anywhere elso on the American conlinent. The great United Verde, the mine of Senator Clark, is some 34 miles North of as and in the same range; its main working consist of only 40 acres; it did not begin to have the surfaces showing our property hash and it is turning out over \$49,00,000 a year.

**More than that—Copper Creek, the greasest unfailing water supply in the district, runs through our property for 1800 feet, and as well as a should dell on the market a about the surfaces of the property hash and it is turning out over \$49,00,000 a year. -AVEPORA O CHITED VERM MAR YAGER YASER COPPER CO More than that—Copper Creek, the greacest unfailing water supply in the district, runs through our property for 1800 feet, and as water is absolutely essential, its value cannot be estimated. PTW MRT LBOLTON GOM BROAM CONSOLIDATE COPPER CREEK We offer you a ground-floor proposition. With the ore actually appead we can run a concentrator of 300 tons capacity, as quickly as it can be erected, for an indefinite period. Unless every geological sign fails, within two years, with ample capital, we should be unlining ore enough to supply a 3000 ton concentrator for generations. COPPIDMINE O We have had assays from four of thee ledges, with the following results of purcopper: 14 410 per cent, 17 7-10 per cent, 23 7-10 per cent, 30 5-10 per cent,

OUR PHOPERTY IS FAVORABLY LO-CATED IN THE HEART OF A

The Consolidated Copper Creek Mining Company's property is located in Yavapai County, fifty miles Southwest of Prescott and twenty-four miles South of Jerome, Arizona, and in the same range with the great United Verde mine, which pays \$20,000,000 in dividenda yeariy to its atockholders. The Crown King Mine, a great producer, just West, has produced hundreds of thousands of dollars. The Richenbar, which pays good dividends, is near us. North, South and West of our property are located mines of unlimited value, as well as the smelter plants to handle their output. At Humboldi and Mayer are located three Independent smelters, with a capsely to handle the entire ontput of the district. Cordes, our railroad sistion, is hut 20 miles west of us, and it is from that point, when connected by the completion of a good wagon road, we will deliver our output and receive freight.

on to children. Sometimes she would and I are. Isn't that a pretty story, and hand in his for an hour vithout speaking, and then suddenly begin asking questions that Roger would have needed to be wife, indeed, to answer.

Sometimes they lay in the grass on the river bank and counted the cloud-boats as they sailed across a sea of blue, and when there were no clouds in the sky, as happened often in that perfect weather, they watched countless yellow butterflies or closed their eyes and tried to name the bird-calls.

For the most part they met few people in their walks, and had their favorite spot by the river to themselves; when they did chance to hear voices in the vicinity they escaped down some leafy way as noiselessly as poachers.

On the first day it rained a very disconsolate and woe-begone little girl looked out the farmhouse kitchen window, but when Roger appeared in the doorway and asked permission to take Winifred to the barn, smiles chased away the tears.

Roger borrowed a blanket, and when he had made a throne of hay he spread the blanket upon it. Winifred settled back with a sigh of content. "Ain't this awful nice?" she whispered happily.

At first they were content to listen in silence to the patter of the rain, but soon Roger began to repeat all the Mother Goose rhymes he knew, feeling ashamed because he could not remember more, He wove Winifred a crown of straw flowers, and when they lay back and looked at the firmament in the rafters, where a window was the moon and each tiny hole that let in the light a shin-

"Seems as if we were away off from the people in the house, don't it?" breathe I the child.

'Yes," answered Roger, with a sigh. walk, there came across the field behind ready made. them footsteps that made no sound in the stubby grass, and so it happened that they were surprised in their retreat by a young lady with a book in her hand who started at sight of them and would have slipped away again had not the child seen her and run to her side.

"Please stay, Miss Flatty,"
"Roger's going to tell me a story."
"Yes "Please stay, Miss Hartly," she begged Roger had risen to his feet. please stay, Miss Hartly," he said cour

The young woman hesitated, and fin ally seated herself on the grass with her back against a tree and one arm around Winifred, who nestled close to the slen-

She was very beautiful (Roger told himself this every time he saw her), with fresh, healthy beauty and seemed of a piece with the green-and-gold world about them.

"Now you begin the story," commanded Winifred, with what was for her unusual boldness. "Please tell the one about the Princess Evelyn."

Roger stirred impatiently. Hartly may not care to hear a story, your majesty," he said, "and, as she is our guest, we must please her. Winifred and I are king and queen, and this is our eastle," he explained to the new-

Miss Hartly smiled. "The Princess Evelyn l" she repeated; "it is a pretty

"it ends badly. No ehild but Winifred would care for it." "Nevertheless. I should like to hear it."

insisted Miss Hartly. A short silence followed, during which

Winifred looked from one to the other of the pair in a puzzled way; there was something of constraint in the situation and the child felt it. "I know the story," she ventured, hesi-

Miss Hartly drew the little girl closer.

"Tell it to me, dear," she said.
"Once upon a time," began Winifred, there was a princess whose name was Evelyn. She was the most heautiful princess in the whole world and many men loved her."

Winifred's hands were folded in her lap and her eyes looked at the shining water of the river. She had heard the story so often that unconsciously she fell into Roger's way of telling it.

"Now, there was a shepherd who loved the princess, and he was sad at heart because he knew he could never marry her. Once the queen went to the country, taking the court with her, and the shepherd said to himself: 'Now my princess will walk in the fields near the palace, and maybe she will speak to me. I know that I can never marry her because she is so far above me—the world is full of shepherds, but where is there another woman After each meal two figures would like the Princess Evelyn?-but perhaps

"But princesses don't care to walk in the fields," continued the child; "they and, though it never quite left him. She lonely man, and never stopped loving the

FADS AND FANCIES.

MINNA SCHATT CRAWFORD

Although the picturesque and eccentric play the leading parts on fashion's stage this season, there are many charming styles that are decidedly conservative and simple, so that it is merely a matter oi taste whether one be dressed conspicuously or with quiet elegance. Fashions are so elastic that "becomingness" is the only real essential of good style.

This is the period for wash gowns and the clever woman who can sew or the machine is able to make herself half a dozen pretty tub toilettes for the sum she would be obliged to expend on one of Once, upon a day while Roger and she would be obliged to expend on one of Winifred rested by the river after a long these smart creations if she bought it

Something new in the way of a dainty corset cover is always welcome. The one here pictured is made with a high girdle belt which, while permitting all the fluffy fullness so dear to the feminine heart, does away with the bulky material at the waist line. The trimming may be varied title for a story. I should like to hear to suit individual fancy, but the way it is arranged on the model is very pretty "It is not a pretty story," said Roger; and extremely becoming. No. 1841 is cut in sizes 32, 36, 40 and 44 inches bust measure.

The loose fitting pony jacket gives an batistes. The blouse has short sleeves extra smart touch to any costume with with turn-back cuffs and collars of white which it is worn. It has such a luxur- or of same material, and modified circular iously feminine air and is more modish skirt handsomely trimmed with plaits. After each meal two figures would be friends. (I know this part than any of the longer coats. It may be made of either taffeta or of cloth to measure. The skirt pattern No. 2004 is cut in sizes 32, 34, 36, 38, 40 and 42 Inches bust be made of either taffeta or of cloth to measure. The skirt pattern No. 1936 is match the dress. The one here illustrated cut in sizes 22, 24, 26, 28 and 30 inches like to be gay and have the gentlemen of was made of blue taffeta with narrow waist measure. soothed the dull, never-ceasing ache that the court hate each other because they bands of Persian embroidery and left unthe court hate each other because they bands of Persian embroidery and left un-love them. very little finely chopped parsley.

Egg Savories.—Pass the yolks of three or four hard boiled eggs through a kind of Legal Document, also at a nominal fee. We send you the document promptly, neatly typewritten or partly cheese. Season with celery salt, pepper printed. and a little cayenne. Add a teaspoon-ful of warm butter. When it is hot, spread it on some triangular shaped pieces of toasted bread. Heat carefully in the oven and serve sprinkled with chopped parsley.

Indian Toast.-Take all the bones and the skin from the remains of some cooked, smoked haddock. Weigh four nunces (this is sufficient to cover six pieces of toast) and pound it in a bowl viil a dessertspoonful of fresh butter Then add a teaspoonful of mustard, teaspoonful of curry powder and a few drops of vinegar. Pass the fish through a wire sieve and make it hot in a small saucepan containing about a teaspoonfu of warm butter. Have ready some carefully toasted pieces of brend of medium size minus the crust. Place a little heap of the prepared fish on them. Ther sprinkle over this some hard boiled white of egg which has been passed through sieve, and after placing in the oven for a minute send to the table topped by a stuffed olive.

Curried Beaus,-Soak half a pint of outter beans for a couple of hours and then boil them in salted water until they are tender. After draining them well, season with salt and pepper and put them aside until they are required. Cut large onion into slices, chop it coarsely and put into a stewpan containing three type of figure, and suitable for all kinds tablespoonfuls of butter. Add two tomatoes, sliced and cut into small pieces, and as soon as the onion begins to acquire a golden color sprinkle in a table spoonful of enery powder and let it cook very gently for ten minutes. Pour in three enps of boiling water, and when the sauce has boiled, draw the pan to the side of the slove and let it simme gently for a quarter of an hour. Then add a tablespoonful of tomato catsup a teaspoonful of vinegar, two teaspoon fuls of lemon juice and the beans. Cover with buttered paper and place the stewpan in a moderately hot oven for an hour. The curry should be carefully stirred once or twice during the time and the heat should not be allowed to increase, or the carry will be too dry
